16 Lington, June 16th, 1838. NAVAL AND COMPS OR APPENS THE TEXAS QUESTION JOIN QUINCY ABAMS ON FREEben-or Parition An animated behave STEAMBOAR BOILERS, &c. &c. PAULDING'S ROMINATION THE IOWA APPOINTMENT.

As soon as the Journal was read, Mr. Adams took the fluor, and, as Chairman of the Naval Affai. Committee, saked Thave the General Appropriation Bills co-idered, prior to any other handres. At . Oushaute of the Commerce Comunities, (Mr. F. O. J. S. ith's locum tenens.) made a similar proposition with regard to Co.kmercial affairs. But Cara objecting to both, the requests of his friends were withdrawn very submissively.

Mr. Adams then took the floor, and occupied it during the morning hour, in reply to Howard, Chairman of the Foreign Affairs Committee, upon the question raised by the presentation of certain resolutions of that committee, on a former day, seked to be discharged from the further consideration of the Texas Annexation Question. Drongoole had made this report. Cushing of Marachuretts had proposed to recommit that report, with instructions to the Committee to report upon the State legislature resolutions, and the numerous petitions and memorials, in relation to this subject, maddy Thompson had x_vved to amend thes-instructions by requiring the Committee to report in favor of the proposed annesation, and Mr. Edams had offered amondatory resolutions, to there of at that Texas could not be annexed under the Breaty making power of the Scoretsey; but, if all, only by action of Congress.

Thus stood the avention when it came up this day for discussion. Mr. Mie "commenced s. very and still speech, touching principally upon the obligations of a Committee of the House té-Mi-ke-inte con la inti-" all resolutions, - awiels, Ac. and "to report thereon."

On a former day he had asked of the Comnittes of Foreign Affairs whether they had ever riven fire winner consideration to the great mass of the people's memorials and petitions, and the joint resolutions of the legislatures of sovereign hiters, on the subject of the annexation to the Union of the Republic of Texas. Dramageole had taken fire at this, and had denied point blak, the right of a member of the house to catenhise, in this manner, a committee thereof. Ho and, (Chair ren) had undertaken to " h me. goof to the full length, in this senti-__nt. To day, M. WIRE PULLERS.

Mn. Epiron: It is right, in my estimation, that the people should know how things are managed in the political world. A great deal is said about the Wishes of the people that they ought to be fairly represented in-conventions, caucuses, and similar meetings that there should be a fair expression of their voice in bese public assemblies. This is sound doctrine, but the practice, unfortunately, will not bear examination. It is high, time that the people should have something more to depend on thanthese hollow hearted professions of selfish and designing politicians. Conventions should express the plans and distinct wairs of the people, uninfluenced by other considerations arising from selfish motives of political aspirants. Caucuses should be conducted on the same principle, for here the wishes of the people should be most especially regarded.

I perceive by your paper that the Loco-focos have had their Convention, and the above remarks have been suggested by hearing who figured particularly while that Convention was eitting, from this section. It would seem that the delegates, whether properly or improperly selected, have not soted altogether on the free agency principle, if report is true. Perhaps, however, the "party" may feel satisfied, but lest they should not know who were the grand managers from Penobscot, I beg leave to communicate the information I-have received. Now if report is true, these Penobscot managers consisted principally of cont-off office-holders, auch as the Ex-County Attorney, the Ex-Clerk, the Ex-Surveyor General, the Ex-Sheriff, and Ex-Deputy Sheriffs "too numerous to mention." It is said that there patriotic, disinterested democrats pulled the wires, having previously had all matters "cut and dried." Now, it occurs to me that these folks must have bed the interests of their pockets much more at heart than the interests of the people. They are not contented with having sucked the pap until they "waxed fat and kicked" - have become bloated with high keeping in fine, have feathered their nests from the people's funds quite enough, as a reasonable being might suppose. But no, they are like the insatiable horse-leech never knowing when to cry "enough." It is well that the people whould understand these things, and judge for thems lves. Their action will be cofrect when they have a feir understanding of the premises. The fact is, they have been decerinterrupted by Legara, (also of the Committee.) friends, who regard the interests of the people ... he said that, ... hile be did not after or deny at large more than individual employment and

Dis ugsale, and Mr. Howard, he, for one. was I have stated these facts that they may be willing to answer the original question of Mr. | generally known, and that the people of Penubscot and the State may govern themselves ac. Many of the survivors were badly burned before lasked into one of the memorials of resolutions cordingly. I have full confidence in the year referred in the Committee of which he was a manry of our State, and know that they will not act blindly, if such facts are laid before them. They will claim to know whether these things how much truth and honesty there is in them; constant the relations of the United States ... From the Buffalo Com Adverti and Saturday,

AWFUL-CATASTROPHE. The steamhoat North America is just in, by the passengers of which we learn the particulars of a most heartrendering calamity the destruction of their new and elegant ateauthout WASHING LON, by fire off Bile r Court; about 3 o'clock this morning, with the estimated icas of FIFTY LIVES!

The Weshington passed the North America while the latter lay at Erie, in the early part of the night, and was not again seen by there on board the N. America, until when about three miles of the city, a bright glare of light was discovered by the helmsman, in the direction of Silver Creek, and the North America was instantly put about for the acene of apprehended dis-

On nearing the spot, about 6 o'clock the burning hull of the large and noble boat was found drifting over the waters, three or four miles from shore, with not a living human being on board. The lake was literally covered with lists, bonnets, trunks, baggage and blackened fragments

The intense anxiety of the witnesses of this fearful scene, for the late of the passengers of the unfortunate. Washington, was partially relieved by the discovery of several amail boats near the shore, in which the surviyors of the disasters had been rescued from destruction.

The alarm had been given at Silver Creek, as soon as the flames were perceived from the shore, and all the boats which could be found, were sent to the rescue of the aufferers. There was only three skitts, besides the yawl of the Washagion, which could be thus used.

The North Minerica took on board about 40 cf those raved, many of whose, including all the ladies, remained on shore. There were six dead bodies picked up on the spot, those of four children and two worten. One man died of iniurice soon after reaching the shore, and one childwas dead in its mother's arms when she was taken out of the water.

After picking up all the floating baggage which could be seen, the hull which was still able to float the engine was towed into Silver Croek, where it sauk in 6 or 8 feet water. Th North America respained at Silver Creek, embloked III rum mengnonon's nasmissa-' sev of r. Acre hours, and every thing was done by Captain Edmonds, and his crew, for the relief of the sufferers. Their prompt and efficient services ure

entitled to all praise. The illifated Washington was built at Ashtabuls, last withter, and had made but one trip previous to hey destruction. The fire caugh near the boilers, and had made such progress when didovered as to dely all attempts to extinguish it. The below was instantly put about, and the boat head defor share, but in a few moment the with rope was burnt off and she was rendered at abmanageable wreck. Heat teen rade been sab lituted, as melancholy experience has tendet on the Mississippi, this appulling loss of life might have been averted!

We hear that the curvising passengers of the Washington unite in stating that no blame was attributable to Capr. Brown lie commander.

We hope and expect that the reported loss of life as stated above may prove exaggerated. We have heard, since commencing this article, the lars variously estimated from tocaty to sivily. they left the boy.

We have no statement as to the probable a-

mount of pecuniary, damage sustained by this distressing event. The passengers must have suffered beauty. One merchant from Illinois lest \$6,000 in money.
